# Installation Manual
# IDAS DRE Filters

Prepared by ICAS Enterprises

The IDAS DRE Filters can be attached to and detached from the following drop-in mount adapters:

-Canon EF-EOS R drop-in mount adapter

-Meike MK-EFTR-C (EF-R) mount adapter

-Meike MK-EFTE-C (EF-E) mount adapter

The line up of the IDAS DRE filters includes:
HEUIB-II DRE, NB1 DRE, NB3-PM DRE, NGS1(LPS-D3) DRE, ODW DRE, NBZ-II DRE, GNB DRE and DTD DRE

## Installation to the camera:

Take out the DRE Filter from the package.

Insert into the EF-EOS R or a compatible drop-in mount adapter.

Fully insert until the filter will not move forward any farther.  Now it's ready to use.

Note 1:
The drop-in mount adapter to use with is not included into the DRE package. You can please separately prepare one yourself.

Note 2:
The dimensional specifications of the DRE products are subject to change without a prior notice.
